

# EZ-460-EQ

## DEVICE DESCRIPTION

The **EZ-460-EQ** is our equipment tracker specifically designed and engineered for all powered assets. The device is built to withstand harsh environments and contains internal cellular and GPS satellite antennas. Though it does require 12- or 24- volt power source it does contain an internal back up battery that will last for 60 days when fully charged.

## KEY FEATURES/BENEFITS

- Reports every 10 minutes when equipment is on.
- When Ignition is turned off it will report total engine hours used and distance traveled.
- Automatically creates a ½ mile radius geofence when equipment has been turned off for 30 min.
- Low power consumption when in sleep mode and will wake up to report in once a day.
- Unauthorized movement alerts when equipment is moving without the ignition on.
- Power Disconnect alert - If the 12V power is removed from the device.
- Low-battery notification and voltage monitoring.
- Ability to monitor PTO (Power Take Off) activity.
- Internal backup battery when power is disconnected.

## TARGET MARKETS

This product will support all powered equipment such as bulldozers, skid steers, bobcats, excavator, etc.

# EZ-460-EQ

## DEVICE SOFTWARE HIGHLIGHTS

- Web based; providing access to your fleet information limited only by your access to the internet.
- Fleet tracking updates every 10 minutes when ignition is on. Will also update on a daily basis when ignition is off.
- Track maintenance schedules based upon real time engine hours and mileage data.
- Provides exact arrival and departure data relative to any task, which will increase billing accuracy and reduce billing write-offs and disputes.
- Mapping with Google Street View and Google Earth integration.
- Unlimited users (no additional software license fees or charges).
- Custom map icons (including the ability to input actual photos of your equipment).
- Provides 1 year of historical tracking data and reporting with 3 years of historical data archived, for future reference if and when needed.

## DEVICE SPECIFICATIONS

### Device Specifications

Size: 2.15" L x 4.33" W x 1.59" H

Weight: 12 oz.

Operation Temp. Range: -22°F to +167°C

Wireless Specs: CDMA Dual Band  
850/1900 MHz

Power Consumption:

Deep Sleep: < 1mA @ 12V

Sleep on Network: < 10mA @ 12V

Active Standby: < 70mA @ 12V

Operating Voltage: 6 – 32 VDC

Location Accuracy: 6.56 Ft

Internal Back-up Battery: 5.2 Ah

When sleeping:

When actively tracking:

Certifications: FCC, CE, IC, PTCRB, and  
Verizon Wireless

Device LED's:

Amber LED for cellular connectivity

Green LED for GPS location Lock

## OUR FOREVER GUARANTEE

We stand behind our equipment and software solution with our satisfaction guarantees

**Lifetime Device Warranty** – If at any time during the course of normal use your device stops working (excluding physical or water damage) we will provide a replacement device at no charge.

**30-Day Money-Back** – If at any time within 30 days after a device begins tracking you are not completely satisfied with your purchase or our software solution for any reason, we will give you a refund on the original purchase price of your device. (Not applicable with 3 year bundled plans.)
