DEVICE DESCRIPTION

The EZ-660BAT is a 100% battery operated cost effective tracking GPS device for managing assets that will be deployed for long periods without maintenance requirements. Its design is optimized for periodic location updates, rather than real time tracking. The battery life is 3-5 years. Reporting is 2 times per day (every 12 hours).

KEY FEATURES/BENEFITS

- Control Panel
  - Will show the last reported address in the control panel.
  - It will show on the map or in a cluster depending on its proximity to other vehicles/assets.
  - The zoom to vehicle option functions as expected
  - The EZ660 is programed to just report in 2x per day and then go into a deep sleep until its next "reporting time".
  - Since it doesn't actually track movement, just reports its "address at the location it reported at" – it will typically show stopped for XX days even though it may have moved between reports.
- With regard to Landmarks:
  - if the device started inside a landmark, and upon its next report is OUTSIDE that landmark, then a landmark exit alert will occur upon its next report.
  - the same is true if the device starts outside a landmark and upon its next report, it will show "landmark entry".
  - These are NOT real time alerts. But the address in the CP and the customer will eventually get the enter/exit alert.
- Reports once per minute (plus turns) when vehicle is on and once per hour when off.

TARGET MARKETS

This product will support most general business needs except those requiring PTO (Power Take Off) monitoring or any of the services requiring the need of a wiring harness.

DEVICE SOFTWARE HIGHLIGHTS

- Web based; providing access to your fleet information limited only by your access to the internet.
- Fleet tracking is set at 60 seconds plus turns.
- Supports “closest vehicle” worker dispatch functionality providing accurate ETAs and reduce wasted time between jobs and improve customer relations.
- Provides real-time location, speed, heading, stopping and mileage data.
- Track maintenance schedules based upon real time mileage data.
- Provides hard breaking and hard acceleration information to help get rid of unsafe driving behavior.
- Monitor idling to reduce fuel and unnecessary wear on your vehicle.
- Provides exact arrival and departure data relative to any task, which will increase billing accuracy and reduce billing write-offs and disputes.
- Provides the ability to create customized zones (landmarks) and receive data relative to the entering, exiting and time spent within each customized zone.
- Mapping with Google Street View and Google Earth integration.
- Unlimited users (no additional software license fees or charges).
- Custom Map Icons (including the ability to input actual photos of each of your vehicles).
- Provides 1 year of historical tracking data and reporting with 3 years of historical data archived, for future reference if and when needed.

OUR FOREVER GUARANTEE

We stand behind our equipment and software solution with our satisfaction guarantees

Lifetime Device Warranty – If at any time during the course of normal use your device stops working (excluding physical or water damage) we will provide a replacement device at no charge.

30-Day Money-Back – If at any time within 30 days after a device begins tracking you are not completely satisfied with your purchase or our software solution for any reason, we will give you a refund on the original purchase price of your device. (Not applicable with 3 year bundled plans.)
